

FX Projector RGBW

## Introducing

● This is a projector designed for dynamic projections in architecture, characterized by fluid movements of two interchangeable animation wheels. It is available with 4 different optics (19°, 26°, 36°, 50°). In addition to the animated wheels you can insert one other fixed gobo so as to create endless custom effects for your projects (Fire, Water and Boreal effects etc.). Thanks to all these key features this product is always a step ahead of the classic animation wheels. Available fixed white or RGBW.

## Key Features

• Create vivid, dynamic 3D lighting effects

• Two interchangeable animation wheels + gobo holder

• 4 fan different settings: Silent, Studio, Auto, DMX Regulated

● IP65 rated for outdoor use

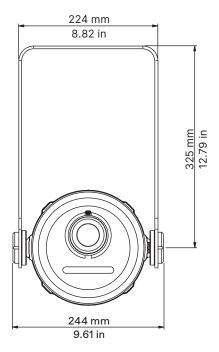

DMX/RDM control
